

FAST FREIGHT PLAN SAVES \$1,500,000

Cost of Shipping Magazines
Materially Reduced.

Reports received yesterday by Postmaster General Hitchcock covering the shipment of magazines by fast freight during September, the first month for which the new plan has been in operation, show that periodical mail matter aggregating 5,820,000 pounds, or the equivalent of 318 carloads, was sent by fast freight in the third contract section alone, comprising the States that range from Ohio to Iowa.

If mail shipments by freight continue at the same volume throughout the year the cost of transportation, including cartage charges, will be about \$500,000. The expense of sending the same amount of magazine matter by mail, as under the former practice, would be about \$2,000,000 a year. Thus the annual saving for third contract district should be about \$1,500,000.

Although the magazine mailings in the third section are somewhat heavier than the average for the entire country, it is believed that what shipment of fast freight is made the practice in the other three sections there will be a total annual saving of from \$4,000,000 to \$5,000,000, showing that Mr. Hitchcock's original estimate was conservative. The results obtained in one month's operation establish beyond question the success of his plan of shipping magazines by freight.

AUTOMOBILE News AND GOSSIP

The T. T. Keane Company yesterday purchased its third Buick light delivery truck from the Buick Motor Company. It has also sold two Buick Buks to J. H. Wilkins.

Taylor Pollock, local representative of the Oldsmobile, is having his showroom in Connecticut avenue remodeled.

N. B. Falls, president of the N. B. Falls Lubricating Company, was in the city yesterday, calling on the local trade.

A road bulletin board has been placed in the automobile supply department of the National Electrical Supply Company by the Touring Club of America. All the latest road information for Washington and vicinity is posted there daily.

Irving Barber, in a Warren racer, and Harry Myers, in a Marquette Buick, left yesterday afternoon for York Pa., where they expect to participate in the race to be held there today.

The Chicago Automobile Trade Association will hold a fall show, beginning next Saturday evening and lasting for an entire week. More than 100 makes of cars are represented in the Windy City and nearly every one of them will be on exhibition at the show. A show at this time seems to be more in keeping with the trade than one in midwinter. Manufacturers have been forcing the season by bringing out models for the coming year in midsummer, and by the time the usual show season rolls around the selling season is half over. Many have already bought their cars, and it is not so late to what they want for the coming season and they in reality are nothing more than the display of a new model. The advantage a show is to them is an opportunity to more closely compare one car with another.

The importance of keeping the radiator of a car clean cannot be overemphasized. Sediment inside reduces the conductivity and makes the radiator as a whole less efficient. Mud in the air tubes on the front of the engine tends to reduce the cooling effect and therefore to have the same effect in a smaller degree as does sediment.

Denver, Oct. 5.—President Taft today delivered in the presentation of an automobile to Manager Jack Hendricks, of the Denver baseball team. Denver is the winner of the 1911 pennant in the Western League. The victory of his team aroused great enthusiasm throughout Colorado. A public subscription was started to buy a "champion" car, touring car for Manager Hendricks.

President Taft presented the Chalmers before a great crowd, not only of baseball followers, but of thousands who came from all parts of Colorado to hear the President speak in Denver.

ANACOSTIA.

The possibility of inducing the government to sell the tract of land now controlled by it, known as the Stevens farm, and located directly between Congress Heights and Washington Heights, will receive the thorough consideration of the citizens, and also an effort will be made to interest a real estate operator in the purchase. This tract contains about 100 acres of land, and is the only means whereby the suburbs may depend upon for future growth.

Several new mail boxes have been installed in Congress Heights for the accommodation of the residents.

The choir of Emmanuel Episcopal church held its rehearsal last evening and will continue throughout this year. The choir will sing at the church on Thursday evening of each week instead of on Wednesday.

The legislative committee of the Public Improvement Association of Congress Heights will probably get busy in the near future in securing an appropriation from Congress for acquiring out-of-the-land in the suburb to be used as a public park and playgrounds. There are several sites that have been considered, but probably the best is the tract now known as Randle Park and fronting on Nichols avenue for about five acres.

If this park is purchased there would be ample room for a park and playground. Suppers seem to be the leading factor in raising money for the churches in Anacostia and Congress Heights, and at present plans are being made by the ladies of the congregation at St. Thomas's, Episcopal, Methodist Episcopal, Baptist, and Eastern Memorial Chapel for suppers to be given in the near future. The principal features on the menus are oysters and turkey.

Motorist Under Charges.

In Police Court to-morrow morning Roland M. Jones, a real estate salesman, arrested Tuesday night following a collision between his automobile and a Pennsylvania avenue car at Fourteenth street, will be arraigned on three charges of violating motor car regulations. He is at liberty under \$5 collateral.

HELP WANTED—MALE.

THE OSBORNE COMPANY OF NEW YORK requires a traveling salesman to take care of an established business in restricted territory. The successful business is art calendars for advertising; the company is the largest in its line, nationally advertised, and its goods have a world-wide reputation as the best; the demand is for a good man, of good education, with character, energy, and the strength and disposition to work hard and steadily to make himself a permanent position; experience as a salesman would be of advantage, but it is not absolutely necessary; the ordinary type of commercial drummer is not wanted; the right man will find this an attractive business, paying much better than the average; first-class reference indispensable. Call on T. V. SUMNER, President, November 8, from 9 to 1, Congress Hall, THE OSBORNE CO.

WANTED—A LIGHT-COMPLEXIONED colored man, graduate, best job in the State; 74 miles from Washington on B. & O. R. R. Address GEO. L. MONROE, 1405 D Street Northwest.
